SUMMARY

I am a Front End Developer who loves creating web apps using modern frameworks and tools such as React and Node.js, while keeping modern design patterns in mind. I often like to come up with designs using tools like Adobe XD and Figma before heading to the VSCode Editor.

PERSONAL PROJECTS

CLASS MANAGER

Technology Used

React, NodeJS/Express, MongoDB/Mongoose, Semantic UI, Framer Motion

Summary

An app intended to help improve K12 classroom behavior and participation. This app features two views, one for the teacher, and another for the student, both of which offer unique functionalities.

GAMEHUB

Technology Used

React, CSS Modules, NodeJS/Express, Firebase/Firestore, Multiple APIs

Summary

An e-commerce video game store where users can sign up for an account using Firebase, search and view game details, add those games to a wishlist and/or cart, and purchase those games using the Stripe API.
